

ACKNOWLEDGEMENTS

I would like to thank Professor J.D. Kaye, my former supervisor, for suggesting the topic of this thesis and for encouraging the project. Professor J.J. Chew supervised the final stages with admirable patience and forbearance. Professors H. Rogers and J.K. Chambers gave valuable comments on the manuscript.

I would particularly like to thank José Mailhot and Adrian Tanner. José in fact made the thesis possible by contributing unstintingly of her time, notes, tapes and expertise about Montagnais dialects and ethnography. Adrian Tanner gave invaluable help with the ethnographic section and continued personal support throughout the entire project.

Robert MacKenzie and John Holt provided indispensable editorial services. The final copies of the maps were also produced by John Holt. Barbara Burnaby and Kelly Toohey provided extensive practical help which allowed the thesis to be completed on time. Among the many Indian people who contributed data, Luci Salt and Annie Whiskeychan were particularly helpful. The fieldwork was supported by the Canada Council, the Department of Indian Affairs and the Cree School Board of Quebec.

TABLE OF CONTENTS

Acknowledgements	i.
List of Figures	vi.
List of Maps	vii.
CHAPTER I: INTRODUCTION	1
1.1 Aim and Scope	1
1.11 Outline of chapters	5
1.2 Previous Classification of Cree-Montagnais-Naskapi Dialects	7
1.3 Geographical Setting	15
1.31 Relief	16
1.32 Vegetation	18
1.33 Fauna	19
1.4 Social Setting	20
1.41 Intra-community Divisions	22
1.42 Demography	25
1.5 Data and Informants	29
1.6 Abbreviations	31
CHAPTER II: CONSONANTS	34
2.1 Reflexes of Proto-Algonkian *1	37
2.2 Stress Placement	45
2.3 Palatalization	49
2.4 Depalatalization	57
2.5 Loss of <u>h</u>	63
2.6 Reflexes of Proto-Algonkian *s and š	72

2.7	<u>n~y</u> Alternation	83
2.8	Voicing	86
2.9	Minor Processes	89
2.91	Assimilation of final alveolars	89
2.92	Degemination	89
2.93	Nasal syllabification	91
CHAPTER III: VOWELS		93
3.1	Long Vowels	97
3.11	Lowering of <u>e:</u>	97
3.12	Backing and rounding of <u>a:</u>	101
3.13	Loss of <u>w</u> before [ɔ:]	102
3.2	Short Vowels	103
3.21	Assimilation to semi-vowels	104
3.22	Assimilation to <u>y</u>	104
3.23	Assimilation to <u>w</u>	106
3.3	Lengthening of Short Vowels	111
3.31	Lengthening of short vowels before <u>h</u>	111
3.32	Lengthening of <u>i</u> after <u>h</u>	114
3.4	Loss of Short Vowels	116
3.41	Loss of initial short vowels (Procope)	116
3.42	Loss of final short vowels (Apocope)	119
3.43	Short vowel syncope	125
3.5	Short Vowel Rounding	129
3.6	Short Vowel Neutralization	135
3.7	Nasalization	141
CHAPTER IV: MORPHOLOGY AND LEXICON		145

4.1	Verb Inflection	151
4.11	Local forms	153
4.2	Independent Order	155
4.21	Independent Indicative Neutral	156
4.22	Independent Indicative Preterit	158
4.23	Independent Dubitative Neutral	165
4.24	Independent Dubitative Preterit	167
4.3	Imperative Order	169
4.4	Conjunct Order	171
4.41	Conjunct Indicative Neutral	172
4.42	Conjunct Subjunctive	176
4.43	Conjunct Indicative Preterit	181
4.44	Conjunct Dubitative Neutral and Preterit	181
4.45	Inanimate Intransitive Conjunct	184
4.46	Initial Change	186
4.5	Negation of Verbs	190
4.6	Lexicon	193
4.61	Nouns	193
4.62	Verbs	199
4.63	Particles	202
4.31	Demonstrative pronouns	205
4.32	Numeral systems	208
CHAPTERS V: CONCLUSIONS		214
5.1	The Cree-Montagnais-Naskapi Continuum	214
5.2	Sub-groupings of the Palatalized Dialects	217
5.3	Innovation and Change	221

5.4	Areal Contact	225
5.5	Non-linguistic Patterns	231
5.6	Conclusion	242
APPENDIX		244
BIBLIOGRAPHY		282

LIST OF FIGURES

1-1	Distribution of Population and Second Language	27
2-1	Reflexes of Proto-Algonkian *1	39
2-2	Depalatalization	58
2-3	Loss of <u>h</u>	64
3-1	Assimilation to <u>w</u>	107
3-2	Lengthening before <u>h</u>	112
3-3	Apocope	120
3-4	Neutralization	136
4-1	Local Forms	154
4-2	Independent Indicative Neutral - AI	157
4-3	Independent Indicative Preterit - AI	159
4-4	Independent Dubitative Neutral - AI	166
4-5	Independent Dubitative Preterit - AI	168
4-6	Imperative Order - AI	170
4-7	Conjunct Indicative Neutral - AI	173
4-8	Some Conjunct Subjunctive Suffixes - TA	177
4-9	Conjunct Dubitative Neutral - AI	182
4-10	Conjunct Dubitative Preterit - AI	183
4-11	Conjunct Indicative Neutral - II	185
4-12	Initial Change	187
4-13	Demonstrative Pronouns	206
4-14	Numerals 'five' through 'ten'	209

LIST OF MAPS

1-1	Palatalized and Non-palatalized Dialects	2
1-2	Ethnographic Classification - V. Tanner	13
1-3	Ethnographic Classification - C.P. Murdock	13
1-4	Drainage Basins	17
1-5	Vegetation	19
1-6	Hunting Territories (after F.G. Speck 1931)	22
1-7	Hunting Territories (Present-day)	26
2-1	Consonant Isoglosses (Cumulative)	36
2-2	Distribution of Cree and Montagnais-Naskapi Dialects. From Michelson 1939.	37
2-3	Reflexes of PA *1	38
2-4	Stress	46
2-5	Velar Palatalization	51
2-6	Final <u>c</u>	59
2-7	<u>Sc</u> Clusters	62
2-8	Intervocalic <u>h</u>	63
2-9	Pre-aspiration	67
2-10	Reflexes of PA *s and *ṣ	73
3-1	Vowel Isoglosses (Cumulative)	96
3-2	Merger of <u>e:</u>	98
3-3	Assimilation of <u>a</u> to <u>w</u>	110
3-4	Short Vowel Lengthening	111
3-5	Lengthening after <u>h</u>	115
3-6	Procope	117

3-7	Apocope	122
3-8	Loss of final <u>-kw</u>	124
3-9	Nasalization of <u>nita:nis</u>	142
4-1	Morphology Isoglosses (Cumulative)	147
4-2	Lexical Isoglosses (Cumulative)	148
4-3	Numeral Isoglosses (Cumulative)	149
4-4	Local Forms	153
4-5	Past Tense	160
4-6	IDP Suffixes	167
4-7	Conjunct Plural Suffixes	172
4-8	Conjunct Subjunctive Suffixes	176
4-9	II Conjunct Suffixes (Singular)	186
4-10	Negative Formation	191
4-11	'mountain, hill'	194
4-12	'river'	195
4-13	'canoe'	195
4-14	'axe'	196
4-15	'long and rigid'	197
4-16	'building'	198
4-17	'he works'	199
4-18	'he is hungry'	200
4-19	'he crys'	200
4-20	'he drinks'	201
4-21	'it snows'	202
4-22	'all'	203
4-23	'maybe'	204

4-24	Tens Formation	211
4-25	Twenties Formation	212
